

## STATEMENT

Dear Mrs., Sir,

This letter explains the amendments in the claims

The original claims have been amended in order to create unity in the patent application. Therefore quite a number of products have been removed from the claims as well as claims on production procedures for removed products and the total number of claims has been reduced from 27 to 17.

The procedures are pretty complex and unclear to me. I hope I am not engaged in procedural mistakes.

With kind regards

Dr L. Huybrechts
